`launchRefuginator`*Launch the Refuginator Application in your Browser*

Description

Launch the Refuginator Application in your Browser

Usage

```
launchRefuginator(defaultbrowser = TRUE)
```

Arguments

`defaultbrowser` Choose whether to launch the application in your default browser.

Value

Launches Refuginator application in your browser. All features are contained within the application. Read the "refuginatorIntro" vignette for a guide to the features.

Examples

```
if (interactive()) {  
  launchRefuginator()  
}
```
